

Serving EDUCATION

Are you struggling with meeting your accountability measures? Are you looking to enrich your curriculum and programming? Our experience in working with all sectors from

EARLY EDUCATION TO ADULT EDUCATION

provides a comprehensive foundation to realize positive student outcomes and community impact. Our team has experience working with state and federal government. We are current and understand education policies and the latest research.

COLLABORATE

We work with you, your partners and our industry partners to identify what data and research is necessary to support your current and future goals.

ASSESS

We pull together and interpret the latest research and trends to understand the industry and make best practice-informed recommendations.

CREATE

We create best practices and work with your team not only on how to collect and analyse the data, but how that data can improve your overall organizational outcomes.

OUR SERVICES:

- ✓ Conduct feasibility studies
- ✓ Identify grant opportunities & help write grant applications
- ✓ Gather & analyze student & community data
- ✓ Visualize data with reports, dashboards & infographics
- ✓ Facilitate stakeholder feedback from students, staff, parents & the community
- ✓ Support implementation of new projects.
- ✓ Help develop and design new programs
- ✓ Strengthen school, community & family partnerships

TCG kept us on track as we navigated a Lilly Endowment grant that will support our counselors. They engaged our community, sought feedback from staff and students, analyzed our data, helped us develop a plan for the program, and created enthusiasm.

Jason Callahan, Superintendent,
Wabash City Schools
