

# Serving FUNDEERS

We can help you bring diverse partners together to collectively work on identifying the issues, building community will and buy in from the key stakeholders, and reaching consensus on the action plan.

## WE SIT ON BOTH SIDES OF THE TABLE

Having worked both with funders to develop, implement and manage funding programs and grantees (or recipients) of those funding sources, we bring a holistic perspective and understanding to our clients regardless of what side of the table we sit.

### COLLABORATE

We work with you, your partners and our industry partners to identify what data and research is necessary to support your current and future goals.

### ASSESS

We pull together and interpret the latest research and trends to understand the industry and make best practice-informed recommendations.

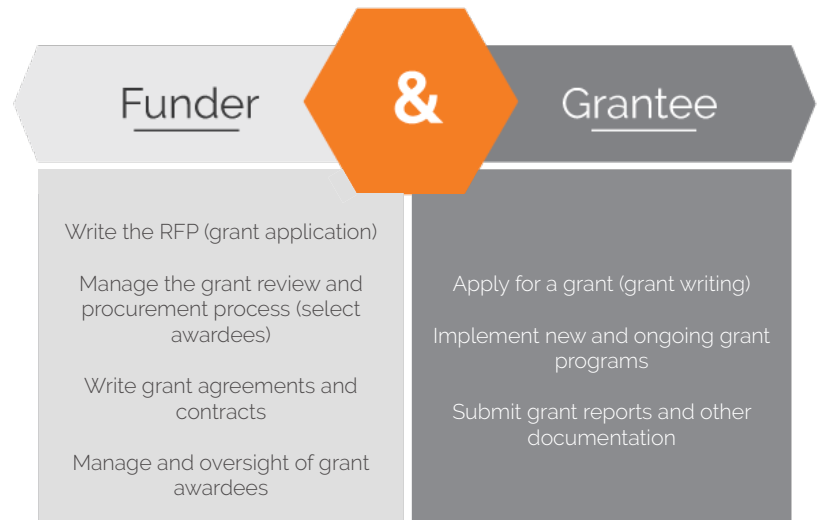

### CREATE

We create best practices and work with your team not only on how to collect and analyse the data, but how that data can improve your overall organizational outcomes.

## OUR SERVICES:

- ✓ Facilitate strategic planning process
- ✓ Lead collective impact collaborations
- ✓ Manage grant application and review process
- ✓ Complete feasibility studies
- ✓ Provide capacity building training for grantees
- ✓ Develop data dashboards to track grantee impact

“ Transform Consulting Group successfully brought together diverse leaders in our community to implement a strategic plan that will better the lives of families across our entire county. With the help of the TCG team, we were able to leverage over \$100,000 in state funding to support our strategic plan. ”

Julie Garber, Program Director,  
Community Foundation of Wabash County
