

Accelerate Your Impact Through STRATEGIC PLANNING

Our environment is dynamic. Policies, research and communities are constantly changing. We help leaders identify opportunities for action and proactively respond through the development of timely, relevant and action-oriented strategic plans.

COLLABORATE

We work with your key team including stakeholders, staff and partners to evaluate the current position of the organization and the desired goals both short and long term to develop your plan.

ASSESS

Through surveys, interviews, focus groups as well as key indicators and research, we are able to utilize data to create a comprehensive profile of the organization and your environment.

CREATE

We create a timely, relevant and action-oriented strategic plan based on the data collected, input from stakeholders and consensus from the team.

“ Transform Consulting Group successfully brought together diverse leaders in our community to implement a strategic plan that will better the lives of families across our entire county.
Julie Garber, Program Director, Community Foundation of Wabash County ”

Strategic Plan Examples

OUR SERVICES:

- ✓ Complete internal and external assessment to understand trends and your industry landscape
- ✓ Package comprehensive information from assessments
- ✓ Facilitate planning team sessions to reach consensus on the future of your organization
- ✓ Develop three strategic plan deliverables: 1) one-page overview of key goals; 2) strategic plan summary; 3) tactical operational plan
