

Accelerate Your COLLECTIVE IMPACT

Do you have an issue to address that is bigger than what one organization can solve? We can help you bring diverse partners together to collectively work on identifying the issue(s), building community will and buy in from the key stakeholders, and reaching consensus on the action plan.

OUR SERVICES:

- ☑ Identify the key stakeholders to engage
- ☑ Gather the data and key information
- ☑ Assist in developing a common agenda and plan for the future
- ☑ Act as the "backbone support" and facilitate the group
- ☑ Provide training on collective impact

The Collective Impact approach is the belief that no single policy, government department, organization or program can tackle or solve the increasingly complex social problems we face as a society. It is an innovative and structured approach to making collaboration work across different sectors.

“ Transform Consulting Group successfully brought together diverse leaders in our community to implement a strategic plan that will better the lives of families across our entire county.

Julie Garber, Program Director, Community Foundation of Wabash County ”
