## CONSULTING SERVICES & EXPERIENCE

### BUILD CAPACITY

- **Fund Development:** Researched funders and grant opportunities for a variety of clients. Written clear and persuasive case statement.
- **Program Development & Management:** Lead management of client projects from start-up through implementation. Managed communication with clients, including monthly reports and project check-in meetings.
- **Strategic Planning:** Facilitated the development of new organizational strategic plans.

### USE DATA

- **Program Assessment & Evaluation:** Worked with organizations to evaluate their programming through the development and implementation of evaluation plans. Facilitated the collection of qualitative data from instrument development to data analysis and summary. Used data and evaluation results to inform programmatic recommendations and decisions.
- **Data Dashboards:** Developed custom interactive dashboards using Tableau data visualization software with qualitative and quantitative data. Trained client staff on using data tools.
- **Data Analysis:** Trained client staff on using data tools and completing data analysis and visualization. Provided recommendations and procedures to clients to improve their internal data collection process. Collected and analyze quantitative data from public sources such as the Census, state departments of education, workforce development, health, child welfare, and higher education. Created visually appealing infographic reports, slide deck presentations, and other reports summarizing data analysis.
